Extension homework

Week 9

‘ My home in the UAE ’

Each boy will draw one map.

It can be of their **room**
house
area
or
city

This is the most basic plan to make.

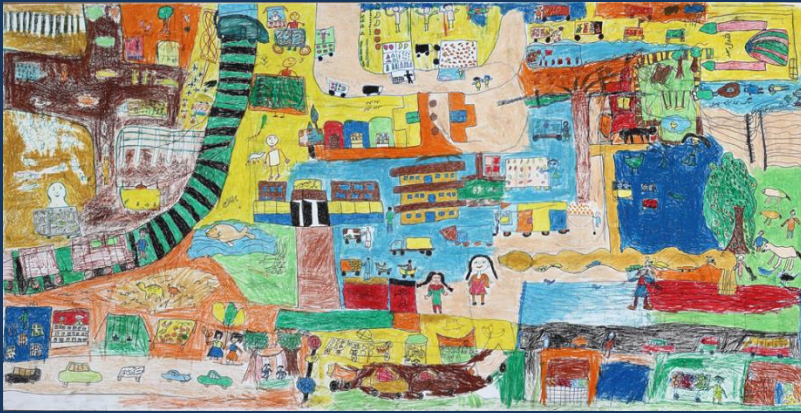

Draw your bedroom, and show the position of the things in it.

Label the objects using a straight line and neat writing.

This is harder than one room, but you do not need to include detail about the objects in each room.

If your home has more than one floor, you can draw the floors side by side.

This is a basic way for younger learners to draw a map of their local area. They would have to think about the area, and perhaps travel around it before drawing this.

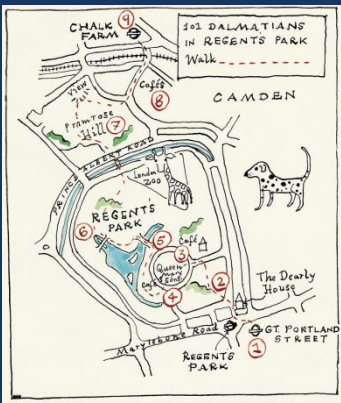

Notice that all the paper is coloured : there is no plain paper.

These 4 maps are more advanced.

They show 'bird's eye' views of an area.

This could be done by looking at google maps online.

This map is more complicated.

Again, using google maps would be useful before beginning to draw your own map.
